Professional Summary

Motivated and detail-oriented **Full Stack Web Developer** with a strong foundation in **frontend and backend technologies**. Proficient in building scalable and responsive web applications using **React.js, Next.js, Node.js, and Nest.js**. A fast learner and team player passionate about delivering high-quality solutions and clean code. Looking for an opportunity to contribute to innovative projects and further develop my skills in a professional environment.

Technical Projects

1. ShareSwift – Online File Sharing Platform

Developed a user-friendly and secure platform for sharing any type of file online using Next.js, Tailwind CSS, Prisma, Cloudinary, and shadcn components. ShareSwift features a clean and modern interface built with shadcn for seamless navigation and accessibility. It allows users to effortlessly upload files, with metadata managed via Prisma and file storage handled by Cloudinary. The platform emphasizes security with end-to-end encryption and automatic file deletion after 24 hours to ensure privacy. Its fully responsive design guarantees optimal usage across devices, making it an efficient and intuitive solution for file sharing.

2. AI Interview Mocker – AI-Powered Interview Simulation Platform

Developed an AI-driven interview simulation platform using Next.js, Tailwind CSS, and Drizzle ORM. This application allows users to practice for job interviews by engaging with AI-generated questions tailored to specific roles and industries. Implemented a user-friendly interface with Tailwind CSS to ensure an intuitive user experience. Utilized Drizzle ORM for efficient database management, handling user data and session histories. Integrated AI capabilities to generate realistic interview questions, providing users with a practical preparation tool.

3. Realtime Board – Collaborative Whiteboard Application

Developed a real-time collaborative whiteboard application using Next.js, Tailwind CSS, Liveblocks, and Zustand. This platform enables multiple users to draw, add sticky notes, and interact simultaneously on a shared canvas, facilitating seamless remote collaboration. Implemented real-time synchronization of board content across users with Liveblocks, ensuring low-latency updates. Managed application state efficiently with Zustand to provide a responsive user experience. Designed an intuitive and responsive UI with Tailwind CSS, ensuring accessibility across various devices and screen sizes.

Key Skills

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, TypeScript/ES6

Backend Development: Node.js, Nest.js, Express.js

Databases: MongoDB, MySQL, PostgreSQL

Version Control: Git, GitHub

Soft Skills: Problem-Solving, Attention to Detail, Team Collaboration, Fast Learner

Practical Experience (*Project-Based Learning*)

- Completed over **100+ hours** of hands-on coding experience through self-initiated projects using **React.js, Node.js, and Next.js**.
 - Developed full-stack applications from scratch, implementing backend services and optimizing frontend performance.
 - Actively contributed to open-source projects and shared code on **GitHub**.
